

Limited Coverage Tests – 2003 Medical Necessity Requirements

This list is provided as a service to clients of Specialty Laboratories. The information is based on the new National Coverage Determinations (NCD) for 2003 and on Local Medical Review Policies (LMRP), issued periodically by the local carrier as they apply to tests provided (directly or indirectly) by Specialty Laboratories. Custom panels and tests not routinely orderable by all clients are not listed herein. There can be no representation or warranty as to the accuracy or completeness of the information, and use of this information does not assure compliance with national or local Medicare carrier policies. Please consult CMS and/or the Medicare carrier and/or Medicare carrier publications for interpretations and updates.

The document on the following pages is divided into 2 sections:

- Alphabetical list of affected tests with National/Local Coverage Index
- List of CPT Codes and ICD-9 Codes related to the specific NCD and LMRP categories.

For more information regarding National Coverage Determinations and Local Medical Review Policies, we suggest the following website: <http://www.cms.hhs.gov/coverage/>. Scroll down to the bottom of the first screen on the government website and it provides the following options:
